

March 27, 1974

of Directors are controlled by the management. Who controls the Power Review Board? Let's get down to some serious thinking. We need LB656 in the State of Nebraska but we do not need the wheeling amendment because we have ways of controlling the cost of power in the State of Nebraska. We have ways of appeals, hearings, the whole ball of wax which everyone says that we have to abide by hearings.

PRESIDENT: Stand by, Senator Lewis. Now, let's.....

SENATOR RICHENDIFER: I hear somebody hollering but they still have...this is mismanagement on the local level. If they can't negotiate.

PRESIDENT: Senator Stahmer, I want to remind you that the motion essentially to lay over is not debatable. Now, we're going to dispose of it that way and some place along the line here, somebody has to start ruling as to what we're going to have tonight in the way of debate. Speak for or against the motion. Senator Stahmer has the floor.

SENATOR STAHMER: Well, I was just going to point out to Senator Epke that I have a kill motion in case your hold over motion doesn't work.

PRESIDENT: All right, the motion is to lay the bill over. Senator Barnett, do you want to be heard?

SENATOR BARNETT: Mr. President, I'd just say that I would oppose the hold over motion. I think that we in Lincoln are interested in this. I think it's time to get to the question. I think this filibustering that's going on has gone long enough.

PRESIDENT: All right. Senator Carpenter. The motion is to lay the bill over.

SENATOR CARPENTER: Well, this is an old dodge. For example, Epke wants to lay it over to study it, I presume. He's supplemented by Stahmer, he wants to kill it. Now let's decide now not to lay it over and if you don't lay it over, let's pass the bill as amended by Senator Goodrich and get on with the rest of the bills.

PRESIDENT: Senator Richard Lewis, the motion before us is to lay the bill over. All right, do you want to be heard on the issue to lay it over or not?

SENATOR R. LEWIS: Yes, I certainly do. I object to laying it over. I think we should discuss it at this moment. You can tell from the conversation how well it's been lobbied. I don't see any point in yielding to the lobby pressures in laying it over at this time.

PRESIDENT: Thank you. Senator Schmit, do you want to be heard? Motion is to lay the bill over.

SENATOR SCHMIT: Well, Mr. President and members of the Legislature. I'd just like to say this. I don't why anyone that anyone lobbyist is anymore purer than another one. I'd like to say also that Senator Carpenter as a self-acknowledged expert in this place is perhaps correct. But he's probably the only one that knows what is going on and half the time he talks about the dodge that Senator Epke is trying to pull. Well, he knows one because he's pulled more of them than anybody in this place or all of us put together.
